

OPT SurgiSystems' Approach and Commitment to Environmental Management

Dear partners,

OPT SurgiSystems continues its commitment to sustainable and environmentally conscious growth.

Our goals

At OPT SurgiSystems, business activities such as:

- ❖ Internal processes;
- ❖ Product life cycle;
- ❖ Applied production technologies;
- ❖ Research and development aimed at using sustainable materials and industrial processes.

At OPT SurgiSystems we are committed to achieve the following goals:

- ❖ pollution prevention;
- ❖ environmental conservation;
- ❖ continuous improvement of our environmental management system;
- ❖ continuous improvement of our environmental performance.

Our environmental management and protection strategy

At OPT SurgiSystems, we have mainly implemented the following activities over the years:

- ❖ Monitoring and execution of activities required by environmental legislation and applicable to the business environment such as. ATMOSPHERE EMISSIONS, WATER DISCHARGES, NOISE-ZONISATION with related licensing practices and analysis;
- ❖ Training staff in environmental and waste management so that they develop a sense of responsibility towards the environment; OPT employees play a key role in protecting the environment within the company and contribute actively and directly to its preservation;
- ❖ Carrying out environmental emergency simulations in order to prevent and manage possible emergency situations and accidents that may lead to environmental damage and consequences for the safety of people and property;
- ❖ Maintaining environmental management requirements as per ISO 14001:2015;
- ❖ Monitoring consumption in production cycles in order to optimize resource use.

The results

To date, OPT SurgiSystems has achieved the following milestones:

❖ COMPLIANCE OBLIGATIONS:

Reports from the various Control Bodies showed coverage of legislative and regulatory compliance obligations; the results were also achieved through careful and timely management of operational controls on environmental aspects.

❖ ENVIRONMENTAL PERFORMANCE

As a result of what has been implemented, we have found that, at present, the overall environmental performance of OPT SurgiSystems is adequate and consistent with the aspects applicable to our business activities.

Environmental performance was monitored by verifying:

- the company's water consumption;
- natural gas consumption;
- electricity consumption;

❖ DEVELOPMENT PLAN

For the period 2024-2027, OPT SurgiSystems' Environmental Management development plan will include the following objectives:

1. Gradual conversion of the company car fleet to vehicles with a lower environmental impact;
2. Replacement of lighting fixtures with new ones using LED technology;
3. Use of cups in beverage vending machines made of environmentally friendly material;
4. Implementation of purchasing policies to replace everyday consumables with alternatives with a lower environmental impact;
5. Awareness-raising among our suppliers to apply organisational and production systems for environmental management and protection;
6. Continuation of internal training plans for conscious waste management;
7. Maintaining legislative, regulatory and statutory requirements for Environmental Management and Protection.
